

9:00 am

Dr Pierre-Marc Delaux

The molecular mechanisms behind the evolution of symbiosis in plants

Laboratoire de recherche en sciences végétales (LRSV – CNRS), INSB, Toulouse

10:00 am

Prof. Ute Krämer (online)

Plant Metal Homeostasis: Dynamic Acclimation and Evolutionary Adaptation

Molecular Genetics and Physiology of Plants Chair, Ruhr University of Bochum, Germany

11:30 am

Prof. Doryen Bubeck (online)

Seeing protein pores in molecular detail

Department of Life Science, Imperial College London, United Kingdom
